The Board of Vector Nordic AB (publ) submits herewith the annual report for the year of 2025.

## **Management Report**

### **Information on the operations**

The company was founded in 2015 by Svenska Resebyråföreningens Service AB with the intention to provide travel agencies and tour operators with financial securities for the statutory travel guarantees as well as guarantees to IATA and SilverRail. The company has signed a co-operation agreement with Gar-Bo Försäkring AB with Gar-Bo acting as the insurer and Vector as the tied insurance broker.

The insurance broker services started in January 2017. The activities of the company are directed to customers in all Nordic countries as well as in Estonia.

The Company's registered office is in Stockholm.

### **Significant events during the year**

Travel has recovered since the sharp decline during the pandemic and is now at a stable level, with moderate growth according to The Association of Swedish Travel Industry (SRF). The strongest growth has been in private travel, which is the sector in which the Company is primarily active.

The many bankruptcies within the travel industry during the pandemic have negatively affected the ability to obtain reinsurance for the entire travel sector. In addition, a major bankruptcy occurred in Germany in 2024, and in June 2025 one of the Company's larger clients (Mixx Travel) suspended its payments, which did not improve the situation. As a result, there is a lack of appetite among international reinsurers to provide guarantees for the travel industry, which has meant that the Company remains without reinsurance. This, in turn, has limited its ability to fully support larger clients. During 2025, three of the Company's clients, including Mixx Travel, declared bankruptcy, resulting in substantial guarantee payouts and a negative impact on the Company's brokerage commissions.

### **Results and financial position**

Net revenue, consisting of brokerage compensation in the form of commission income, decreased by nearly 7% during 2025. Despite an increased need for guarantees, the decline can be explained by a few clients leaving the Company due to increased competition and choosing alternative solutions. Thanks to favourable deposit interest rates, several of the Company's clients still choose to deposit funds, in whole or in part, directly with the Swedish Legal, Financial and Administrative Services Agency (Kammarkollegiet) or with their own bank.

### **Ownership structure**

The shares of the company are dispersed among some seventy players in the Nordic travel industry. Major shareholders are Svenska Resebyråföreningens Service AB (18.3 %), Gar-Bo Försäkring AB (11.7%), two private individuals and two travel agents with 8.3 % each. Other shareholders are the Finnish and Estonian travel agents' associations and more than sixty

travel agents and tour operators or individuals linked to these companies in Sweden, Denmark, Estonia and Finland.

## **Note 1 Accounting principles**

### **General accounting policies**

The Annual Report has been prepared in accordance with the Annual Accounts Act and The Swedish Accounting Standards Board's general guidelines BFNAR 2012:1 Annual report and Group accounting (K3).

The annual report has been approved for issuing by the Board of Directors on March 4<sup>th</sup>, 2026. The company's financial statements are to be adopted by the Annual General Meeting on May 21<sup>st</sup>, 2026.

The accounting principles are unchanged since last year.

### **Functional and reporting currency**

Items included in Vector's financial reports are valued in the currency used in the economic environments in which the company is mainly expected to operate (functional currency). The Annual Report is presented in Swedish kronor (SEK), which is the company's functional and reporting currency.

### **Revenues**

Revenues are reported at the fair value of what has been received or will be received in exchange for services carried out in the company's ongoing operations. Revenues are recognized when the amount can be satisfactorily measured and when it is likely that they will accrue to the economic benefit of the company in the future.

### **Leases**

Leasing contract includes renting of premises and office equipment. In general, all leasing agreements are classified as operational leases since the risks and economic benefits normally associated with ownership remains with the leaser. The costs for leasing and rental agreements are accrued on a straight-line basis over the leasing period. The premises lease runs for one year at a time.

The company has not had any leasing expenses during the year and has no leasing contracts on the balance sheet date.

### **Income taxes**

Total tax is made up of current tax and deferred tax. Taxes are accounted for in the income statement except where the underlying transaction is accounted for directly in the equity, and the associated tax benefits are accounted for in the equity.

### **Current tax**

Current tax refers to income tax for the current financial year as well as the part of income tax for previous financial years that has not yet been accounted for. Current tax is calculated based on the tax rate applicable on the balance sheet date.

### **Deferred tax**

Deferred taxation is income taxation relating to future financial years as a result of past

events. Accounting is carried out in accordance with the BSI Method. Under this method, deferred tax liabilities and deferred tax assets are accounted for based on temporary differences arising from the carrying amounts of assets and liabilities and other tax deductions or deficits.

Deferred tax assets shall be net of deferred tax liabilities only if they can be paid with a net amount. Deferred tax is calculated based on the tax rate applicable on the balance sheet date. The effects of changes in the applicable tax rates are recorded in the period before the change was legislated. Deferred tax assets are accounted for as financial assets and deferred tax liabilities as provisions.

Deferred tax assets relating to deficit reductions or other future tax deductions are accounted for to the extent that the deductions are likely to be offset against future tax surpluses.

### **Tangible fixed assets**

Tangible fixed assets are reported at acquisition value less accumulated depreciation according to plan.

The following depreciation period is applied: Equipment is depreciated annually by 30 % of the residual value.

### **Cash Flow Analysis**

The cash flow analysis is prepared according to the indirect method. The reported cash flow only covers transactions that have resulted in payments or disbursements.

### **Definition of key ratios**

#### ***Net sales***

Operating revenues, invoiced costs, side revenues and revenue corrections.

#### ***Result after financial items***

Result after financial income and expenses but before appropriations and taxes.

#### ***Total assets***

The company's total assets.

#### ***Number of employees***

Average number of employees during the financial year.

#### ***Equity ratio - Solidity (%)***

Adjusted equity (shareholders' equity and untaxed reserves less deferred tax) as a percentage of total assets (less pledged assets).

### **Estimates and assumptions**

The preparation of the annual report in compliance with the K3 regulations requires the management to make estimates and assumptions that affect accounting principles and reported amounts of assets and liabilities as well as revenues and expenses. Actual outcome may vary from these estimates. An overview of estimates and underlying assumptions is performed on a regular basis. Changes in the principles used in estimates/assumptions are reported in the actual or future periods depending on which period they are related to.

The company's variable, not yet reported, revenues from mediated insurance are dependent on actual damages reported to Gar-Bo.

### **Risk exposure and risk management**

Due to the very special situation following the pandemic years, with the accompanying high claims outcomes, the client companies' finances and prospects are being analyzed with particular care. Requirements are imposed to ensure that the advance payments received from customers are kept separate and used solely to cover expenses related to upcoming travel arrangements.

## **Note 2 Net sales**

The commission income that the Company receives from the insurer, Gar-Bo.

The invoicing of gross premiums during the year amounted to SEK 42.8 million (previous year SEK 52.8 million).

## **Note 3 Fees and remuneration to auditors and directors of the board**

	<b>2025</b>	<b>2024</b>
Remuneration to the board of directors (incl. social charges)	236 330	216 533
Auditing services	47 500	45 000

Audit assignment means review of the annual report and accounts and the administration of the Board and the managing director, other duties that are incumbent upon the company's auditor to perform, and advice or other assistance caused by observations in such an audit or the performance of such other duties.

## **Note 4 Employees and personnel costs**

been no transactions with any other shareholders during the year except for distribution of dividends.

## **Note 10 Essential events after the balance sheet day and outlook**

Following the extensive bankruptcies in the travel industry during the pandemic years 2020–2022, reinsurance companies have been highly restrictive in underwriting new travel guarantee insurance policies. This has limited the Company's ability to arrange travel guarantees exceeding SEK 30 million, which in turn has resulted in some of the Company's larger clients being forced to turn to other providers to obtain the financial security required for their travel guarantees.

The situation has not improved as one of the larger clients, Mixx Travel, suspended its payments in mid-summer 2025.

The new Travel Guarantee Act passed by the Swedish Parliament in February 2026 will require tour operators to pay a larger portion of their travel guarantees into a fund. As a result, the portion that must be covered by securities in the form of bank guarantees and guarantee insurance policies will decrease significantly, which will also affect the Company's operations in the long term.

However, the establishment of the new fund is expected to take many years, as the larger tour operators are likely to move their guarantees to other EU countries.

The contents of the Annual Report were finalized on 4 March 2026.
